# SAMUEL SHOLADEMI

## Data Analyst

Lagos, NG | P: +234 7018276423 | samuelsholademi37@gmail.com | [LinkedIn](#) | [Website](#) | [GitHub](#)

---

## EDUCATION

---

**UNIVERSITY OF LAGOS**                                                                                         Lagos, NG

Bachelor of Science, Physics                                                                          Expected August 2025

---

## WORK EXPERIENCE

---

**HNG Internship (**HNG**)**                                                                                       Lagos, NG

Data Analyst Intern                                                                            October 2023 – January 2024

- Spearheaded data analysis and visualization projects, leveraging Power BI and Power Query to transform complex datasets into actionable insights. Designed a Power BI dashboard for Claire, enabling real-time tracking of KPIs such as customer satisfaction (improved by 15%), call handling efficiency, average response times, and agent performance.
- Led a flood prediction project for Lagos, applying advanced data analytics techniques to perform exploratory data analysis, uncover critical trends, and create actionable visualizations, aiding disaster preparedness and mitigation efforts.
- Authored impactful Medium articles and blog posts on topics like exploratory data analysis using SQL, driving engagement and fostering knowledge exchange within the data science community, with content reaching 5,000+ readers.

## PROJECTS EXPERIENCE

---

**PwC Virtual Internship** (Forage) | **[Files Folder](#)**                                                       Lagos, NG

Data Analyst Intern                                                                                            June 2024

- Developed an interactive Power BI dashboard to monitor and visualize core business KPIs, including a Customer Satisfaction Report, which enabled the organization to identify and implement strategies that boosted customer satisfaction by 15%.
- Conducted in-depth analysis of HR data with a focus on gender-related KPIs, uncovering the top three root causes of gender imbalance at the executive management level and delivering actionable recommendations that informed diversity and inclusion strategies.

**Tata Group Internship** (Forage) | **[Files Folder](#)**                                                        Lagos, NG

Data Analyst Intern                                                                                       September 2024

- Developed over 10 interactive dashboards for Tata Consultancy Services, enabling stakeholders to visualize complex data sets and driving informed decisions that enhanced operational efficiency by streamlining performance reviews across departments.
- Prepared a comprehensive set of 15+ strategic questions for a high-level meeting with client senior leadership, ensuring alignment with business goals and decision-making priorities.

- Produced impactful graphs and charts for monthly reports; findings identified three major inefficiencies in current operations—driving focused discussions leading toward practical solutions during quarterly management meetings.
